Inspired by an old troll. The birth of the now legendary Touring caravan models was 50 years ago. This cult van became a best-seller through its aerodynamic shape, its low height due to its raised roof, compact size, its low weight and its excellent trailer running characteristics.

The model „Forever Young“ is a special edition with a modern nostalgic look and equipped with the latest technology – its nostalgic design goes back to the first Troll model. The exterior is finished in pearl-grey and the caravan is fitted with a new rear-light cluster and a higher entrance door.

## A classic reinterpreted

The compact kitchen has an elegant and extremely ergonomic design with curved work tops which house a round stainless steel sink and a 3-hob cooker. High-quality spots provide a pleasant working light. The fridge has a capacity of about 70 litres.

Round storage areas on the sides mirror the interior trim. Even the smallest room in the bathroom is fitted with every convenience; the caravan can even be equipped with a shower (optional extra).

In the interior, „Forever Young“ combines classic features with contemporary properties and has a generous feeling of space due to an increase in standing height by about 8 cm.

The furniture in Toscana cherry wood finish with creme coloured trim on the linen cupboard and rear roof stowage compartment harmonises well with the high-quality upholstery fabrics and curtains that also set contrasting colours.

#### Note:

This brochure describes the series status at the time of publication. Some of the photos contain optional extras. Despite careful checking of the contents, printing errors are not excluded. During the course of the model year, we reserve the right to make changes in equipment or product improvements. Before signing a contract of sale, please ask our authorised HYMER dealer for our current products and series status.
